ISOLATE OIL

100% NATURALLY
DERIVED HEMP <
99% CBD
0.0% THC

The SWISS 1876° oils have many uses and can support the well-being of the user. The CBD crystals used in our drops have a purity of >99% and are produced under GMP conditions, certified by Swissmedic and NSF International. The neutral SWISS 1876° oil drops are odourless and tasteless. The drops contain 0.0% THC.

Ingredients (description)

Cannabidiol

Due to its properties, cannabidiol (CBD) can contribute significantly to the well-being of the user¹.

MCT Oil

The abbreviation MCT stands for “medium chain triglycerides,„. These are triglycerides (or MCT fats) which contain medium chain fatty acids. MCT oil is vegan, has a very low allergenic potential, and is odourless and tasteless.

Directions

Supplement Use

Shake well before use. Draw up the cannabidiol base solution using the pipette bulb (squeezing the bulb) provided. Remove the pipette from the flask and apply up to 0.5ml (for each intake) into a teaspoon by squeezing the bulb again. Place the solution under your tongue. Smear the solution around your lower and upper gums as much as possible. For best results, let absorb for 5-10 minutes before consuming any liquids or food. . You can take up to two doses of 0.5ml daily.

Topical Use

Shake well before use. Dispense a few drops onto clean fingertips. Gently work into skin where needed. Suitable for all skin types.

One bottle of SWISS 1876° Oil Drops (10ml) contains approximately 450 drops. This refers to use at room temperature and the bottle (with dropper) or pipette is held vertically. At lower temperatures a deviation may occur due to the change in viscosity of the carrier.

Cosmeceuticals

PURE & CLEAN CBD

The best way to brighten skin. Our high-concentrate face serum boosts and revives your daily skincare routine. Botanical alpine extracts, moringa oleifera leaf and isolate CBD oil target skincare concerns such as sensitivity, uneven skin tone and breakouts.

The SWISS 1876 Face Serum helps to maintain the skin's balance by safely utilizing the benefits of pharmaceutical-grade CBD with no THC.

Ingredients (description)

Cannabidiol

Cannabidiol (CBD) can help regenerate skin cells². CBD has calming and anti-inflammatory¹ properties. It is suitable for sensitive skin.

Pomegranate extract

Pomegranate has astringent, brightening and antioxidant properties.

Olive tree leaf extract / oleuropein

Oleuropein is a natural antioxidant of the olive tree (*Olea europaea*).

Vitamin E

Vitamin E has antioxidant properties and can, among other things, protect cell membranes.

Application

Apply evenly to cleansed skin as needed in the morning and evening. Allow to absorb briefly before applying moisturizer. Suitable for all skin types.

Can support³:

- Reduction and prevention of wrinkles
- Cell protection against the elements
- Seborrhea (increased sebum)
- Calming active acne breakouts
- Effective hydration down to the lower layers of the skin

Content

- Phthalates
- Parabens

Product name

SWISS 1876® FACE SERUM

Product number

SCB030018

An effective eye cream that delivers. This luxurious, Swiss elixir, blends pomegranate extract with CBD for restorative hydration to the eye area. Vegan squalane and jojoba oil support skin elasticity, while targeting common under eye concerns including bags, dark circles and fine lines.

The SWISS 1876° Eye Cream maintains the skin's balance by safely utilizing the benefits of CBD with no THC.

Ingredients (description)

Cannabidiol

Cannabidiol (CBD) can help regenerate skin cells². CBD has calming and anti-inflammatory¹ properties. It is suitable for sensitive skin.

Pomegranate extract

Pomegranate has astringent, brightening and antioxidant properties.

Jojoba Oil

Jojoba oil has skin soothing and hydrating properties. It is stable against oxidation and contributes to the preservation of oil mixtures, increases the elasticity of the skin and protects it from moisture loss..

Shea butter

Shea butter is a fat derived from the seeds of the African shea nut tree vitellaria paradoxa of the sapot family. Shea butter has skin caring, smoothing, protective, nourishing and moisturizing properties.

Application

Use in the morning and evening as required. Gently pat into the under eyes and along the brow bone with little pressure, do not rub. Suitable for all skin types.

Can support³:

- Swollen eyes
- Redness and irritation
- Dry skin
- Lachrymal sacks
- Anti aging

From lips to fingertips. The SWISS 1876° Balm harnesses the emollient power of shea butter and castor oil to leave skin feeling rich and strong. Originally formulated for wounds and abrasions, the balm combines patented CBD crystals with quality alpine botanicals, resulting in an intensely rich, nourishing salve.

The SWISS 1876° balm helps maintain skin balance by safely utilizing the benefits of pharmaceutical-grade CBD with no THC.

Ingredients (description)

Cannabidiol

Cannabidiol (CBD) can help regenerate skin cells². CBD has calming and anti-inflammatory¹ properties. It is suitable for sensitive skin.

Castor oil

Castor oil is obtained from the seeds of the wonder tree (*Ricinus communis*). This is an evergreen shrub that belongs to the spurge family. The oil penetrates deep into the skin, supports the moisture content, and soothes the skin.

Rosemary oil

Rosemary oil is obtained from the rosemary plant which has been known since ancient times as a medicinal and spice plant. It has an invigorating effect and can increase the blood circulation of the skin.

Coconut oil

The main fatty acid of coconut oil is lauric acid. It has the property of penetrating the protective lipid membrane of bacteria and viruses and thus destroying harmful organisms from within.

Application

Due to its nourishing and caring properties, the balm can be applied to chapped, cracked or damaged skin and it will form a protective film. Suitable for all skin types.

Can support³:

- Redness and irritation
- Atopic eczema (neurodermatitis)
- Psoriasis
- Eczema (dermatitis, contact eczema)
- Acne
- Cornification
- Skin rashes
- Muscle and joint pain

SWISS 1876® BALM

Product number

AR-0000084

Indulge and enjoy our luxurious Intensive Repair Cream. Designed for protection against the harsh elements, our cream uses macadamia nut and olive oils combined with highly effective, patented CBD crystals, for a silky soft feeling that will last all day. Vitamins A, D and E provide skin with its daily hydration needs, preventing dryness while locking in moisture.

The SWISS 1876® Intensive Repair Cream helps maintain the skin's balance by safely utilizing the benefits of pharmaceutical-grade CBD with no THC.

Ingredients (description)

Cannabidiol

Cannabidiol (CBD) can help regenerate skin cells². CBD has calming and anti-inflammatory¹ properties. It is suitable for sensitive skin.

Macadamia nut oil

Macadamia nut originally comes from Australia, and has a high content of palmitoleic acid which acts as an antioxidant in the skin. The oil penetrates easily and is excellent for the care of dry, rough and sensitive skin.

Sesame oil

Sesame oil has stimulating properties and gives the skin a light sun protection.

Vitamin E

Vitamin E has antioxidant properties and can, among other things, protect cell membranes.

Application

Apply a small amount to the desired area and massage in. Ideal for the care of highly stressed skin. Can be used several times a day if required. Suitable for sensitive skin.

Can support³:

- Extremely dry skin and nails
- Atopic eczema (neurodermatitis)
- Psoriasis
- Blisters and calluses
- Strained skin
- Seborrhoea (increased sebum)
- Eczema (dermatitis, contact eczema)

LEGAL INFORMATION

INDEX

FARM BILL

GLOSSARY

*Intensive Repair Cream - formerly known as Intensive Care Hand Cream

Legal information for consultation

The SWISS 1876® drops / extracts are not medicines, and for this reason no promises of healing are allowed.

However, the experience of users also shows that most of them can notice a positive effect on their well-being. As the SWISS 1876® drops are not a medicinal product, specifications for use in terms of dosage are not allowed.

Not suitable for children under 6 years.

Licences and Accreditations

Available upon request

Additional information

CBD is metabolised in the liver where it can inhibit the activity of some liver enzymes. For drugs metabolized in the liver, this process may be slowed down and enhance their effect in combination with CBD.

Care should be taken when combining with the following medicines (the list is not exhaustive):

- Acid inhibitors (Pantoprazole and Omneprazole), slower degradation, therefore stronger effect possible
- Anticoagulants (Marcumar and warfarin), increased risk of bleeding possible
- Anticoagulants (Marcumar and warfarin), increased risk of bleeding possible
- Antiepileptic drugs (risperidone, haloperidol and clobazam), increased plasma levels of antiepileptic drugs possible
- Antihypertensive drugs, CBD can lower blood pressure
- Analgesics (Diclofenac)

No serious, undesirable side effects of CBD or interactions with drugs are known. When using SWISS 1876® tinctures or extracts and prescribed drugs at the same time, we recommend that the user consults a physician in charge of treatment.

2018 Farm Bill Excerpt

“The Agriculture Improvement Act of 2018 (2018 Farm Bill) authorized the production of hemp and removed hemp and hemp seeds from the Drug Enforcement Administration’s (DEA) schedule of Controlled Substances. It also directed the U.S. Department of Agriculture (USDA) to issue regulations and guidance to implement a program to create a consistent regulatory framework around production of hemp throughout the United States.”

— U.S Department of Agriculture.

This bill made some hemp-derived CBD products with less than 0.3 percent THC federally legal.

Glossary Terms

GACP** - stands for Good Agricultural and Collection Practices and provides general technical guidance on growing, collecting and processing of medicinal plants and herbal substances for the sustainable production of herbal products classified as medicines.

GMP** – stands for Good Manufacturing Practices and is a system for ensuring that products are consistently produced and controlled according to quality standards. It is designed to minimize the risks involved in any pharmaceutical production that cannot be eliminated through testing the final product. GMP** covers all aspects of production from the starting materials, premises, and equipment to the training and personal hygiene of staff.

NSF International** - Manufacturers, regulators and consumers look to NSF** for the development of public health standards and certification programs that help protect the world’s food, water, consumer products and environment. NSF** provides registration, certification and audit of Good Manufacturing Practices for dietary supplements, personal care products and OTC drugs.

Swissmedic** – They are the Swiss authority for the licensing and monitoring of therapeutic products, ensuring that the therapeutic products they approve are of faultless quality, effective and safe.
